TRANSMITTAL OF THE BUILDING 903B- PREDEMOLITION SURVEY REPORT (PDSR)
DWF-060-04

Provided for your review and approval is the enclosed subject report for Building 903B. This report characterizes the physical, chemical and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

All results meet PDSP unrestricted release levels. Based upon this PDSR and subject to concurrence by the CDPHE, Building 903B is considered to be a RFCA Type 2 facility pursuant to the RFETS Decommissioning Program Plan (DPP; K-H, 1999) is acceptable for demolition.

Please notify Kaiser-Hill when you transmit this document to CDPHE. If you have any questions, do not hesitate to call me or Duane Parsons at extension 6458.

RE: Pre-Demolition Survey Report (PDSR) for Building 903B - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 903B, Revision 0 dated September 2, 2004. This PDSR was received on September 10, 2004. Based on the information contained in this PDSR, and modifications to this PDSR provided by Duane Parsons with KH on 9/16/04, we are hereby approving the PDSR as modified for Building 903B.

As stated in this PDSR, although an RLCR was not completed or provided for our concurrence, we previously provided concurrence with the Type 2 determination for B903B as contained in a Contact Record dated 6/30/04.

We also agreed that demolition of B903B may proceed as discussed in a Contact Record dated 9/16/04.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator

5400.1

Mr. Steven H. Gunderson
Rocky Flats Cleanup Agreement Project Coordinator
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, Colorado 80246-1530

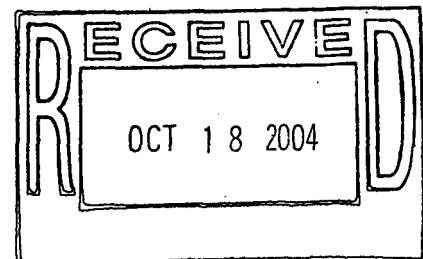

Dear Mr. Gunderson:

Please find the Facility Disposition Rocky Flats Cleanup Agreement (RFCA) Standard Operating Protocol (RSOP) Notification Letter for Building 903B, [FEG-027-04] dated August 30, 2004, identified as a Type 2 facility based upon radiological contamination. This notification invokes the RSOP for demolition of the facility and as such initiates all activities required to demolish and disposition Building 903B.

In a Contact Record dated June 30, 2004, between D. Parsons and D. Kruchek (DAP-024), it was agreed that 903B was a Type 2 facility due to potential contamination. The Colorado Department of Public Health and Environment concurred that decontamination activities could take place, that a formal Reconnaissance Level Characterization Report would not be submitted, and that a pre-survey and report would be performed and submitted for approval prior to demolition.

The Pre-demolition Survey Report (PDSR), Enclosure II, is submitted concurrently for your review and approval with this notification, reference (DWF-060-04), dated September 02, 2004. Building demolition debris meets the unrestricted release criteria. This report characterizes the physical, chemical and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results. All results meet Pre-demolition Survey Plan unrestricted release levels. Based upon this PDSR and subject to concurrence by the Colorado Department of Public Health and Environment, Building 903B is considered to be a RFCA Type 2 facility pursuant to the Rocky Flats Environmental Technology Site Decommissioning Program Plan (DPP; K-H, 1999) and is acceptable for demolition.

This work will be conducted by Kaiser-Hill Company, LLC (K-H). The requirements, methods, controls, and processes outlined in the RSOP will be followed. This work will be conducted in accordance with the work control documentation prepared by K-H and

3

2

SEP 09 2004

its subcontractor. The exact methods and process and progress of the activities will be communicated to DOE and Lead Regulatory Agencies through the consultative process. A schedule for this work is enclosed.

Questions can be directed to Gary P. Morgan at (303) 966-6003.

Sincerely,

Joseph A. Legare, Director
RFPO Project Management
